

The image shows a large, stylized logo for 'South Park Arts' enclosed within a dashed rectangular border. The word 'South' is in a rounded, bubbly font with a white fill and a black outline. 'Park' is in a similar rounded font but with a white fill and a grey outline. 'Arts' is in a more dynamic, slanted, and stylized font with a white fill and a grey outline. The entire logo is centered within the dashed box.

South Park Arts

Use this as a template for your version of the SPArts logo. Feel free to resize it, but make sure you keep the proportions the same.

The shape of the logo and its letters should remain the same as the original, but you can build it, color it, paint it, sew it, carve it, weld it, draw it, bake it, collage it, sculpt it, or [your technique here] it however you like. (If you have an amazing idea but want a little help covering the cost of your materials, let us know and we might just help you out.)

The dashed lines show the size of the website banner. Try to keep your artwork to these approximate proportions (moving the words up or down within the box is ok).

Email webmaster@southparkarts.org to ask any questions and then to let us know when your logo is ready. We'll coordinate photographing or scanning it with you.

Once it's up on the web we will credit you and add a link to your artist page and/or website!
